

CONTENTS

| | | |
|-------------|---|-----------|
| 10.1 | INTRODUCTION | 1 |
| 10.1.1 | General..... | 1 |
| 10.1.2 | Pedestrians And Bicycles | 1 |
| 10.1.3 | Design Features | 2 |
| 10.1.3.1 | Uniformity of Patterns and Design Consistency..... | 2 |
| 10.1.3.2 | Single Exit..... | 2 |
| 10.1.3.3 | Loop Ramps | 2 |
| 10.1.3.4 | Return Movement | 2 |
| 10.1.3.5 | Over Versus Under | 3 |
| 10.1.4 | Road Safety and Human Factors Considerations..... | 4 |
| 10.1.4.1 | The Challenge of Complexity..... | 4 |
| 10.1.4.2 | Understanding The Impact Of Driver Workload..... | 4 |
| 10.1.4.3 | Interchange Driving Task Overview | 4 |
| 10.1.4.4 | Tasks And Risks: Entering The Freeway..... | 4 |
| 10.1.4.5 | Tasks And Risks: Exiting The Freeway..... | 5 |
| 10.1.4.6 | Tasks And Risks: Speed Change Lanes And Merging..... | 6 |
| 10.1.4.7 | Tasks And Risks: Merging And Visual Search..... | 6 |
| 10.1.4.8 | Tasks And Risks: Merging And Mental Workload..... | 6 |
| 10.1.4.9 | Tasks And Risks: Merging And Visual Search On Curves | 7 |
| 10.1.4.10 | Tasks And Risks: Mainline Driving Tasks..... | 7 |
| 10.1.4.11 | Tasks And Risks: Reading Guide Signs Prior To Exits | 7 |
| 10.1.4.12 | Driver Gap Search And Lane Change Distance Requirements | 8 |
| 10.1.4.13 | Sight Distance to the Bullnose Area | 9 |
| 10.1.4.14 | Speed Reduction and Exiting..... | 9 |
| 10.1.4.15 | Interchange Spacing and Driver Workload..... | 10 |
| 10.1.4.16 | Freeway Lane Drops and Additions..... | 10 |
| 10.1.4.17 | Accommodating Heavy Vehicles | 10 |
| 10.1.4.18 | Best Practices for Safety In Interchange Design..... | 11 |
| 10.2 | INTERCHANGE WARRANTS..... | 12 |
| 10.2.1 | Classification | 12 |
| 10.2.2 | Traffic..... | 13 |
| 10.2.3 | Safety | 14 |
| 10.2.4 | Topography..... | 14 |
| 10.2.5 | User Benefits and Capital Cost..... | 14 |
| 10.3 | INTERCHANGE LOCATION AND SPACING..... | 14 |

| | | |
|-------------|---|-----------|
| 10.4 | CO-ORDINATION OF INTERCHANGES | 17 |
| 10.4.1 | Left Exits and Entrances | 17 |
| 10.4.2 | Exit Location..... | 18 |
| 10.4.3 | System Considerations..... | 18 |
| 10.5 | INTERCHANGE TYPES | 19 |
| 10.5.1 | General..... | 19 |
| 10.5.2 | Interchanges between Freeways | 19 |
| 10.5.2.1 | Four-Leg Interchanges | 20 |
| 10.5.2.2 | Three-Leg Interchanges | 20 |
| 10.5.3 | Interchanges between Freeways and Other Roads..... | 20 |
| 10.5.3.1 | Diamond Interchanges..... | 21 |
| 10.5.3.2 | Parclo A Interchanges | 26 |
| 10.5.3.3 | Parclo B Interchanges | 27 |
| 10.5.3.4 | Parclo AB Interchanges | 27 |
| 10.5.3.5 | Rotary And Trumpet Interchanges | 27 |
| 10.5.4 | Interchanges between Roads Other Than Freeways..... | 28 |
| 10.6 | INTERCHANGE RAMPS | 29 |
| 10.6.1 | General..... | 29 |
| 10.6.2 | Ramp Design | 29 |
| 10.6.2.1 | Design Speed..... | 29 |
| 10.6.2.2 | Speed Change Lane..... | 30 |
| 10.6.2.3 | Gore And Bullnose | 33 |
| 10.6.2.4 | Sight Distance..... | 33 |
| 10.6.2.5 | Ramp Width | 33 |
| 10.6.3 | Exit Terminals..... | 34 |
| 10.6.3.1 | Exit Terminal Design | 34 |
| 10.6.3.2 | Exit Terminal Length | 35 |
| 10.6.3.3 | Exit Ramp Transition Curve Criteria | 37 |
| 10.6.3.4 | Sight Distance To Exit Terminals..... | 38 |
| 10.6.4 | Entrance Terminals | 39 |
| 10.6.4.1 | Entrance Terminal Design | 39 |
| 10.6.4.2 | Entrance Terminal Length..... | 40 |
| 10.6.4.3 | Entrance Ramp Transition Curve Criteria | 41 |
| 10.6.4.4 | Sight Distance At Entrance Terminals..... | 42 |
| 10.6.5 | Ramp Terminal Spacing | 42 |
| 10.6.6 | Safety and Design Overview | 42 |

| | | |
|-------------|---|-----------|
| 10.7 | OTHER INTERCHANGE DESIGN FEATURES | 46 |
| 10.7.1 | Operational Analysis | 46 |
| 10.7.2 | Ramp Metering | 46 |
| 10.7.3 | Bus Interface | 47 |
| 10.7.4 | Grading and Landscaping Development | 48 |
| 10.8 | TYPICAL INTERCHANGE DESIGN FEATURES..... | 49 |
