

CONTENTS

2.1	PART 1: DESIGN CONTROLS.....	1
2.2	HUMAN FACTORS AND THEIR APPLICATION TO ROAD DESIGN	1
2.2.1	Background	1
2.2.2	Overview of Driver Expectancy.....	2
2.2.3	Overview of Perception Reaction Time	3
2.2.4	The Designer’s Response	3
2.2.5	Human Factors and Design: Some Supporting Discussion	4
2.2.5.1	The “Design User”	4
2.2.5.2	Design User Capabilities and Limitations	5
2.2.5.3	Visual Characteristics	5
2.2.5.4	Cognitive Abilities.....	8
2.2.5.5	Perception-Reaction Time.....	10
2.3	SPEED	11
2.3.1	Introduction	11
2.3.2	Speed Related Terminology.....	11
2.3.3	Speed, Safety and Design	12
2.3.4	Human Factors and Speed: Some Supporting Discussion	13
2.3.4.1	Cues Drivers Use To Select Speed	13
2.3.4.2	Peripheral Vision Information.....	14
2.3.4.3	Noise Level	15
2.3.4.4	Speed Adaptation.....	15
2.3.4.5	Road Message	15
2.3.4.6	Speed Limit.....	15
2.3.4.7	Driver Workload and Speed	15
2.3.5	Limitations of Design Speed Approach.....	17
2.3.6	Design Domain: Design Speed Selection	18
2.3.6.1	General Application Heuristics.....	18
2.3.6.2	Rural Highways.....	18
2.3.6.3	Urban Roadways	21
2.3.6.4	Design Speed Choices for Rehabilitation Projects	22
2.3.7	Design Domain: Target Speed Selection.....	22
2.4	DESIGN VEHICLES.....	23
2.4.1	Introduction	23
2.4.2	Vehicle Classifications.....	23

2.4.3	Vehicle Characteristics.....	24
2.4.3.1	Length, Width, and Turning Radius.....	24
2.4.3.2	Vehicle Height.....	33
2.4.3.3	Driver Eye Height.....	33
2.4.4	Vehicle Turning Paths.....	34
2.4.5	Selecting a Design Vehicle.....	34
2.5	SIGHT DISTANCE.....	35
2.5.1	Introduction.....	35
2.5.2	Criteria Used In Calculating Sight Distance.....	35
2.5.2.1	Object Height.....	36
2.5.2.2	Deceleration Rate.....	37
2.5.3	Stopping Sight Distance.....	37
2.5.3.1	Stopping Sight Distance: Variations for Trucks.....	40
2.5.4	Passing Sight Distance.....	40
2.5.5	Decision Sight Distance.....	44
2.6	Part 2: DESIGN CLASSIFICATION.....	46
2.6.1	Introduction.....	46
2.6.2	Design Classification System.....	46
2.6.3	Factors Considered In Classification.....	48
2.6.3.1	Land Use.....	48
2.6.3.2	Service Function.....	48
2.6.3.3	Traffic Volume.....	49
2.6.3.4	Flow Characteristics.....	49
2.6.3.5	Operating Speed.....	49
2.6.3.6	Vehicle Type.....	50
2.6.3.7	Connections.....	50
2.6.4	Characteristics of Classifications.....	51
2.7	Part 3: DESIGN CONSISTENCY.....	55
2.7.1	Introduction.....	55
2.7.2	Cross Section Consistency.....	55
2.7.3	Operating Speed Consistency.....	56
2.7.3.1	Prediction of Operating Speeds.....	57
2.7.4	Driver Workload Consistency.....	57
2.7.5	Safety and Consistency.....	58
	REFERENCES.....	61
