

CONTENTS

7.1	INTRODUCTION	1
7.1.1	Introduction to Roadside Design	1
7.1.2	Urban Situations	1
7.1.3	Opportunities to Reduce Roadside Obstacles	2
7.1.4	The Forgiving Roadside	2
7.1.5	The Design Focus	2
7.1.6	Human Factors Contributing To Run-Off-Road Collisions	3
7.1.6.1	Horizontal Curves	3
7.1.6.2	Loss of Directional Control	3
7.1.6.3	Driver Incapacitation, Inattention, and Distraction	3
7.1.7	Roadside Safety Guideline: Format	4
7.1.8	Chapter Outline	4
7.2	EXPLICIT ANALYSIS OF ROADSIDE SAFETY FEATURES	4
7.2.1	What Does It Involve?	4
7.2.2	Overview of Collision Prediction Models	5
7.2.3	Overview of Cost-Effectiveness Analysis	5
7.2.4	Integrated Roadside Safety Cost-Effectiveness Analysis	6
7.2.4.1	Introduction	6
7.2.4.2	Benefit-Cost Analysis Overview	6
7.2.4.3	The Benefit-Cost Analysis Procedure	6
7.2.4.4	Encroachment Module	7
7.2.4.5	Collision Prediction Module	7
7.2.4.6	Severity Prediction Module	8
7.2.4.7	Benefit-Cost Module	8
7.3	THE CLEAR ZONE CONCEPT	8
7.3.1	Overview	8
7.3.2	Elements of the Clear Zone	8
7.3.3	Factors Influencing the Clear Zone Design Domain	9
7.3.3.1	General Advice	9
7.3.4	Design Domain: The Clear Zone	11
7.3.4.1	Design Domain: Quantitative Aids	11
7.3.4.2	Design Domain: Application Heuristics	13
7.3.4.3	Emerging Research	14
7.3.4.4	Benefit-Cost Analysis for Clear Zone: Example	14

7.4	APPLYING THE CLEAR ZONE CONCEPT.....	17
7.4.1	Roadside Slopes	17
7.4.1.1	Clear Zone Application Heuristics: Parallel Slopes	18
7.4.1.2	Clear Zone Application Heuristics: Cross Slopes	19
7.4.1.3	Clear Zone Application Heuristics: Cut Slopes.....	20
7.4.1.4	Clear Zone Application Heuristics: Roadside Channels.....	20
7.4.1.5	Emerging Research.....	23
7.4.2	Drainage Features.....	27
7.4.2.1	Design Domain Application Heuristics: Curbs.....	27
7.4.2.2	Design Domain Application Heuristics: Transverse Culverts	29
7.4.2.3	Traversable Designs.....	29
7.4.2.4	Design Domain Application Heuristics: Longitudinal Culverts.....	30
7.4.2.5	Design Domain Application Heuristics: Inlets.....	31
7.5	SIGN, LUMINAIRE, AND OTHER SUPPORT.....	31
7.5.1	Basis For Design	31
7.5.2	Breakaway Supports: General Comments.....	32
7.5.3	Design Domain: Overview.....	32
7.5.4	Design and Location Heuristics: Breakaway / Non-Breakaway Signs.....	32
7.5.5	Design Domain Application Heuristics: Sign Supports	33
7.5.5.1	Overhead Signs	33
7.5.5.2	Large Roadside Signs	33
7.5.5.3	Small Roadside Signs	34
7.5.6	Design Domain Application Heuristics: Luminaire Supports.....	34
7.5.7	Design Domain Application Heuristics: Traffic Signals and Service Devices	35
7.5.8	Design Domain Application Heuristics: Utility Poles	36
7.5.9	Roadside Vegetation Considerations: Best Practices.....	36
7.6	TRAFFIC BARRIERS	38
7.6.1	Basis For Design	38
7.6.1.1	Barrier Applications	38
7.6.1.2	Determining the Need.....	39
7.6.1.3	Performance Requirements.....	40
7.6.2	Roadside Barriers: Design Domain And Examples	40
7.6.2.1	Technology Overview	40
7.6.2.2	Embankment Warrants.....	41
7.6.2.3	Roadside Obstacle Warrants.....	43
7.6.2.4	Pedestrian and Bicycle Warrants	43
7.6.2.5	Barrier Selection Criteria	44
7.6.2.6	Zone of Intrusion.....	45
7.6.2.7	Placement Heuristics.....	46
7.6.2.8	Lateral Offsets	47
7.6.2.9	Terrain Effects	48
7.6.2.10	Flare Rate	49
7.6.2.11	Length of Need	49

7.6.3	Median Barriers: Design Domain	57
7.6.3.1	Commonly Used Barriers	57
7.6.3.2	High Tension Cable Barriers	59
7.6.3.3	Barrier Warrants	59
7.6.3.4	Trends.....	61
7.6.3.5	Explicit Evaluation of Safety: Median Barrier and Width	62
7.6.3.6	Barrier Selection Criteria	62
7.6.3.7	Placement Heuristics.....	63
7.6.3.8	Terrain Effects	63
7.6.3.9	Flare Rates	66
7.6.3.10	Rigid Objects	66
7.6.4	Bridge Railings/Transitions: Design Domain.....	66
7.6.4.1	Technology Overview	66
7.6.4.2	Warrants	66
7.6.4.3	Multi-modal Configurations.....	67
7.6.4.4	Placement Heuristics.....	73
7.6.5	End Treatment/Crash Cushions: Design Domain	73
7.6.5.1	Technology Overview	73
7.6.5.2	End Treatments: Application Heuristics	74
7.6.5.3	Crash Cushion: Application Heuristics	75
7.7	ROADSIDE DESIGN IN URBAN ENVIRONMENTS.....	76
7.7.1	Overview.....	76
7.7.2	Application Heuristics.....	76
7.7.3	Use Of Roadside Barrier	77
7.8	ROADSIDE DESIGN FOR LOW VOLUME RURAL ROADS	77
7.8.1	Overview.....	77
7.8.2	The Importance Of Cost-Effectiveness	78
